

Twelfth Night "The Craft"

Crystal breath on infant lips
Clear eyes see worlds that don't exist
Sparkle 'why',--and curiosity
Watch the child become a man--
Who will live again, inside you
One day he will live again
The craft, the craft
Teachers word, Cane and command
Remove these clouds and head from sand
Shattered dreams, --alone and cold
Cling to a warmer source of release and vow
"I will live again inside you one day I will live again",--
the craft, the craft
old men die but to be young
the rest is yet to be sung--,
they will live again, inside you
one day they will live again
one day they will live again
--we will live again
--I will live again
--I will live again
One day--
One day--
One day I will live again
The craft, the craft--
Inside you
Inside you
To live again inside of you--
To live again inside of you--
To live again inside of you--
Of you--
