You've just reached the end of your rope
there's no place to turn
there's no place to hide
I'd bet you love it

you're running away from
this outstanding offer..???

this will cost you everything

I said we never forget..
no, nothing..

this don't look good!

your fate is in our hands
you're not going to get out of this one
death has arrived,
this just dont seem right..

you've just reached the end of your rope
there's no place to turn
there's no place to hide
I'd bet you love it

I said we never forget
