You can't look past us
once we've figured you out
pay no, attention to this suit
no, just don't read between these lines
we'll let you know when we sort things out

just take a look
just take a seat

wouldn't that be fine
wouldn't that be fast

we'll suck the poison right out of your lungs

let's speed this whole process up
let's let the boys at it

we'll suck the poison right out of your lungs

oh look at all these people, now this is how we ride
then, the temperature drops

let's speed this whole process up
let's let the boys at it

set me up for treason, you still sale me as a liar
you shall feel my wrath when you've reached my front
door
set me up for treason, you still sale me as a liar, yeah

we'll set you up, let's heat things up
let's raise the bar

this time Im not going to lose
