Tried to rush the day
Trying not to even care
And the timing wasn't right
Seeming to forget again

And all this time
You wanted to
Believe In something
You could get behind
You're never where you want to be
And you'll never see the truth

And it was the newest
You wanted me
Made of what
You want to see
Goes into you
And uses me
And all is fine
And all is true
For you to show honesty
And make me feel like
I am honored sympathy
To keep you clean
To fall in line
To fall in love with me

Tried to change the way
But failing feels so good again
And you're crying at the sight
It never leads to anything
At all

Never seem to satisfy
Trying not to cry again
Lifting hard [inaudible]
Trying to save the world again

But the timing wasn't right
Never seeing anything
At all

And all this time
You wanted to
Believe in something
You could get behind
You're never where you want to be
And you'll never see the truth

And it was the newest
You wanted me
Made of what
You want to see
Goes into you
And uses me
And all is fine
And all is true
For you to show honesty
And make me feel like
I am honored sympathy
To keep you clean
To fall in line
(I'll fall apart)
To fall in love with me
(I'll fall apart)

I hope you've decided
Not to be divided
People to rely on
I need to decide on

And it was the newest
You wanted me
Made of what
You want to see
Goes into you
And uses me
And all is fine
And all is true
For you to show honesty
And make me feel like
I am honored sympathy
To keep you clean
To fall in line
(I fall apart)
To fall in love
(I'll fall apart)
To fall in love
(To keep you clean)
To fall in love with me.
