You get your heart started
So far from the drink of her
And it's the hardest part
Begins your day begins to burn

Show me a way
To be somewhat what you are
Show me a way
For me to get through
Show me a way
To feel the love that you feel
Show me a way
To see what you do

We're naked
And wasted
And we're waiting
Waiting for the moment
To take us
From frustration
Into patience
And forward to the end of the line

You keep on crawling into fluid bars
Taking in all the jealousy
We're not fortunate or movie stars
The rest are telling you it's guaranteed

Show me a way
To be somewhat what you are
Show me a way
For me to get through
Show me a way
To feel the love that you feel
Show me a way
To see what you do

We're naked
And wasted
And we're waiting
Waiting for the moment

To take us
From frustration
Into patience
And forward to the end of the line
Forward to end of the line

You thought this last time was hard
So far gone it's unthinkable
It's like a lifetime
The pin sticks in and starts to burn

Show me a way
To be somewhat what you are
Show me a way
For me to get through
Show me a way
To feel the love that you feel
Show me a way
To see what you do

We're naked
And wasted
And we're waiting
Waiting for the moment
To take us
From frustration
Into patience
And forward to the end and

We're naked
And wasted
And we're waiting
Waiting for the moment to take us
From frustration
Into patience
And forward to the end of the line.
