"Bad Habit"

I am not asking you to understand,
All that I do cause that's the way I am,
But I all I want is to be your man.

Just let me be your...bad habit.
Just tell me what you need and you'll have it now.
Just tell her heart to release me.

I'm only weathered cause I've had to fight,
Against a world that wants to run our life,
But I would stop to be with you tonight.

Just let me be your...bad habit.
Just tell me what you need and you'll have it now.
Just tell her heart to release me,
She used to please me, so come on and release me.

I'm only weathered cause I've had to fight,
Against a world that wants to run our life,
But I would stop to be with you tonight.

Just let me be your...bad habit.
Just tell me what you need and you'll have it now.
Just tell her heart to release me,
She used to please me, so come on and release me.

Leaving her, no, I'd never think it,
'Til we went out by the river, now I'm sinkin' down.
Those days are gone, thanks to you,
Now I'll I'm wanting is the love that's flowing through
you.
