I'm going out on the streets and I'm feeling high
But you want to fight me and I don't know why
Yeah I wanna get dirty all covered in mud
But you turn on me, all I see is blood
Well let's break the law here tonight
Tonight, tonight
You wanna lock me up and throw away my key

I'm out with my lads and I'm feeling mean
Well we ain't that good, and we ain't that clean
We don't really care if you're black or white
We're doing now until it's light

Well let's break the law here tonight
Tonight, tonight
They wanna lock me up and throw away my key

Well let's break the law tonight
We'll give 'em one more tonight
We'll settle an old score tonight
And we'll break the law here tonight
Tonight, tonight
They wanna lock me up and throw away my key

I'm out on the streets and I'm feeling high
But you wanna fight me and I don't know why
Yeah I wanna get dirty all covered in mud
But you turn on me, all I see is blood

Well let's break the law here tonight
Tonight, tonight

They wanna lock me up and throw away my key
They wanna lock me up and throw away my key
They wanna lock me up and throw away my key
Tonight
