I have no fear...the new age is here

Plastic age...road rage
We got videos, stereos, radios and telephones
Nubile contractors, nuclear reactors
Sex scenes in magazines, laser beams
And war machines

I have no fear, the new age is here...Pig Iron
Technology, it's all just shit to me...Pig Iron

Satellites and motorbikes
We got smog counts and head counts
Silicon chips and breakdowns
Virtual reality is breeding insanity
Fuck this rat race...shoot me off
Into cyberspace

I have no fear, the new age is here...Pig Iron
Technology, it's all just shit to me...Pig Iron

Don't touch me...
I'm dirty...
Don't push me...
I'm evil...

Listen...
Test tube families
We got ecstasy, heroin, crack, cocaine, amphetamine
Sniff it up, jack it up, blow your fucking brains out
We got Star Wars, race wars, HIV and BSE

I have no fear, the new age is here...Pig Iron
Let's fire up the oven, we'll burn the atmosphere
I have no fear, the new age is here...Pig Iron
Pig Iron
Pig Iron
Pig Iron
