Feel so good!  
And it feels so good!

It's friday night - F.R.I.D.A Y  
And it feels so good to be dancing to the light  
It's friday night - F.R.I.D.A Y  
And it feels so good to be dancing to the light

Na na na na na - It's Friday  
Na na na na na - And it feels so good  
Na na na na na - It's Friday  
Na na na na na - Jump on the weekend

Look around and see the people smile  
Trying hard being happy for a while  
Hear the music coming in  
I think it's time for the begin  
A hard week of work so i let it go  
Loose my mind and then join the show  
Magic's taking you away  
Friday night is the party nowadays

When you wake up the party's at the end  
Now you think 'bout money that you spent  
Back to work to make it all come good  
Daily 9 to 5 on the hood  
So what you gonna do  
You gonna work it off a day or two  
And then before you know  
It's friday night on the go
