"If You Want My Love"

Hello, here we go
Yes, we're back, I hope you know
Who was wrong, who was right
Please, can we stop the fight?

Now, what can you do
What's a lie and what is true?
One, two, here's the clue
All my love is just for you

If you want my love
Come and take it
Because my love
Is ready to make it
I got love
Baby, don't break it now, because
All around there's magic everywhere

Onie, monie, macaroni
This is the one and only
I think the time has come
To get back where we belong

Yes!
I hope it's true
Oh i do, cause this is new
One, two, here's the clue
All my love is just for you!!
