Walking out of the door I'm on my way can you tell me
just where I'm

going

Occupational skills would you give me a clue what to do
cause my minds

in motion

Just trying to relax I find myself on the couch with big
plans but

there's always

tomorrow

Is something wrong with me or the way that I¹m
thinking

Come on Come on and tell me why you're staring

Come on Come on it must be what I'm wearing

Come on Come on and tell me why's it taking so long
for you to

recognize and stop

Another day in the sun I'm having fun feel the heat
sneaking up on me

I take a look in the sky a plane goes by is that the
reason that I

can't breathe

I take a look and I wonder why, why these birds don't
fly

It's hard for me to see and I believe my oh my

Chorus

I took a trip to the bar does my money go far can you
show me just how

to spend it

Moving around I like the sound I find myself looking
pretty stupid

If I had a gal she'd be in a dress I better slow my
drinking down

If I don't get it together tonight they're gonna run me
out of town

Chorus
