Leave me alone
I'm over it
And everybody's moving on

I can't see my tomorrow
And yesterday's come and gone
So leave me alone

My mind is blown
But it's my own
So deal with it

I'm feeling fine most the time
I may be on the outside
But no one's gettin in

So leave me alone

We're okay
Reeling in the daze
We're all right
We're just getting high

Let us be
It'll be all right

I got no strife
I'm loving life
Could you say the same?
You don't have to move to groove

So come on up and see me
But leave that judge behind
Cuz I'm loving life

We're okay
Reeling in the daze
We're all right
We're just getting high

Let us be

It'll be all right

We're okay
Reeling in the daze
We're all right
We're just getting high

Let us be
It will be all right

Ahâ€¦.

I'm getting stoned
And what's wrong with that?
The president seems to be just fine

Come on up and see me
Come on up just know
That I'm getting stoned
I'm getting stoned

I'm getting stoned
I'm getting stoned

We're okay
Reeling in the daze
We're all right
We're just getting high

Let us be
It'll be all right
It'll be all right
It'll be all right
