I see you floating by me

I see a beautiful face

It's pointed straight up towards the smog

I know I know you feel me beaming

Can you sense my burning x-ray vision

As you roll on by now

You must be gravitating

To the vibe I'm generating or maybe not 'yet

I have known you forever

You pushed the reset button on the counter of my heart

But you'll laugh at my advances

But still I've gotta chance it as I watch your dust

You do it You do it for me that's how I know that you are
mine

I send out to you

Frequencies exceeding the speeding laws of sound

I extend out to you

The satellite that will orbit your mind until your down

That's how I know that's how I know

I'm the asteroid that will infiltrate your soul

That's how I know that's how I know

Speeding towards you burning out of control

Chorus
