Chorus:

You think it's fun you think it's fun and games

Can't tell you 'cause you know everything

You know right from wrong but you do it anyway

Can't break away, can't seem to get away from you

Get away from you, from you, get away from you

Get away from

Don't know where you're going

But you know where you've been

Time isn't kind now all the years are showing

You don't think it's broke

So you don't wanna fix it

Don't have a clue

Walk away just forget it's you

Get away from you, from you, get away from you

Get away from you

Chorus 2:

Caught in the middle

What's right, what's real

The grass isn't greener, on your side of the fence

I tried of this really

No one can see

I'm really in for

A miserable life

If you can't dance

Then you can't dance with me

You better bring your own, I only brought enough for
me

My best friend is my own prophecy

That's what you get when you come along with me

Come along with me, come along with

Chorus 2
