Hear me say through your windows crack,  
we've gotta get away and we'll never look back again  
we'll never look back again

Get ready since the night is young,  
we're only 17 and the adventure's begun with us  
and it'll end with me right next to you

So stay right here  
I'll be right back  
and when I return we'll leave  
to the city in the paintings that we've only ever  
dreamed of  
Race through the streets as we intertwine in a series  
of lights and cafe signs we're here, this is where we  
want to be  
I'm kinda tired shall we rest for a now?  
I'd like to take a minute to see your smiling face,  
and appreciate this place

If you could lay right here,  
right next to me,  
no amount drugs could make  
me feel as high as when I'm with you  
It's late out there,  
this inn will do for now  
we can make it through together, it's just a matter of  
how

You could flush away all my memories  
but your only one that means much to me  
I'm glad that you can see that we are something  
special  
The glass around my heart ain't protecting me  
from the pain and suffering you could cause to me  
but just like in that song L.O.V.E.  
you can take it just don't break it if it's not too much to  
ask of you

Let me give you my heart

You could flush away all my memories

but your only one that means much to me  
I'm glad that you can see that we are something  
special  
The glass around my heart ain't protecting me  
from the pain and suffering you could cause to me  
but just like in that song L.O.V.E.  
you can take it just don't break it if it's not too much to  
ask of you
