(Mike on lead, w Jian harmonizing)

dont ya tell me what youre putting in my lunch box dont
tell me what your
feeding me today, dont fill my head with trouble while
im scarfin down a
cheese souffle

i wanna be a new, original creation a cross between a
moose a monkey and a
fig im ready Monsanto let me be your guina pig

cuz the seed we sew aint good enough the earth we
plow it aint good enough
the food we grow well its never been up to scratch,

the geezer with the beard and all the angels made a
few mistakes I dont
know why we dont need him anymore if geneticly
modefy

so dont ya tell me what youre puttin in my lunch box i
got a crazy
pioneering additude dont bother me with labels gotta
get a belly full of
franken-food

gotta geta belly fulla franken-food
