She won't mind,
But all your lies aren't making sense,
I know what you want from me.
And it's all coming back,
'Cause things can't turn around that fast,
And you won't like what you'll get from me.

And here's all I have to say,
She's on my mind, she's on my mind.
I'd just like to say that you won't
Waste my time, waste my time.
And it's all the shit that I can't
Take this time, it's almost time.
And I'd like to drink tonight
And waste my time, don't waste my time.

When I get home,
I'll take my chances with romance,

Don't call me 'cause I've got plans.
And I'm sure you'll come clean,
If I were you I wouldn't waste your time on me,
But it's your call.

And here's all I have to say,
She's on my mind, she's on my mind.
I'd just like to say that you won't
Waste my time, waste my time.
And it's all the shit that I can't
Take this time, it's almost time.
And I'd like to drink tonight
And waste my time, don't waste my time.

And you'll never know what's on my mind.
