When you came in my heart
I was born from the cold, from the cold, from the cold
Yeah when you came in my heart
I was born from the cold, from the cold, from the cold

My body got lifted on a warm cloud
My fingers are clinched with yours
My body got lifted on a warm cloud
My soul is filled with yours

Cause when you came in my heart
I was born from the cold, from the cold, from the cold

And now I don't know what to do when you're not here
I'm out of balance and out of control
Yeah now I don't know what to do when you're not here
I'm lost, unbalanced and out of control

Cause when you came in my heart
I was born from the cold, from the cold, from the cold
Yeah when you came in my heart
I was born from the cold, from the cold, from the cold
I was born from the cold, from the cold, from the cold
I was born from the cold, the cold, the cold
