Just nonsense, we're foolin' around
Just nonsense, we're foolin' around
Just nonsense, we're foolin' around
Or else we'll end up like the rest of the crowd

No need for excess, no greed or best dressed
Let's be true to the life we're living
We'll sing a song worth singing
Let's get straight to the point
You're just a girl and I'm just a boy
You're not your purse, and I'm not my car
We are who we are
Be real, just nonsense and a little jibber jabber
And let's forget what that silly world is chasing after
Because fame and fortune frustrate
But life and love they liberate
Drop pride and be alive
Give someone a high five

Because it's all

Just nonsense, we're foolin' around
Just nonsense, we're foolin' around
Just nonsense, we're foolin' around
Or else we'll end up like the rest of the crowd
