If it's not the heat  
tell me what else it could be  
It brings up such a force in you  
It brings up such emotion in me.

All signs of life are moving slowly now

Once there was a fortress  
Your skin became aflame.  
And I burned down as a windowpane  
kept rattling my name

All signs of life are moving slowly now  
All signs of life are moving so slow  
Even God's supposed to smile at the Earth  
below

Little something to cool you off  
Little something to cool you off  
Once there was a river  
Far from the waterfall  
Still dark and half asleep  
YOu were the cannonball.

All signs of life are moving slowly now  
All signs of life are moving so slow  
Even God's supposed to smile at the Earth  
below

All the signs of life are moving slowly now  
All the signs of life are moving so slow  
All signs of life are moving slowly now  
All signs of life are moving so slow  
All signs of life are moving slowly now  
All signs of life are moving so slow
