

Lovers Electric

"Closer"

Visit "[Closer](#)" on MotoLyrics.com

you want more space
i want less distance
you want more words
I want less noise
you speak in rythmes
i dream in wishes
we've got nowhere left to hide

you see the sun
I see the burning
you see good things in everyone

The closer my heart is
the further my head is from you
The more that I need you
the less I can see what to do

you want my hand
I want the darkness
you want the warmth
I want the cold
you walk ahead
I walk in circles
we've got nowhere left to go

you see the sun
I see the burning
you see good things in everyone

The closer my heart is
the further my head is from you
The more that I need you
the less I can see what to do
