All my life I've been waiting for someone else to
change but nobody wants to
I don't know what the choices are for me
And then you walked right in & took me to pieces
All my pride & all my defenses
Everything I didn't want you to see

Could this be holds a little?
Feels a little love?
Could this be the one you can't explain when the night
is done?
Could this be the one who moves a little?
Takes a little more?
Could this be the one?
Could this be the one?

And we toss & turn a million paces
Hours in our head as days are changing
I was thinking love would never be for me
Then you look at me & tell me you need me
All my dreams & all that I can be
I was looking lost until you came & rescued me

Could this be holds a little?
Feels a little love?
Could this be the one you can't explain when the night
is done?
Could this be the one who moves a little?
Takes a little more?
Could this be the one?
Could this be the one?

Could this be holds a little?
Feels a little love?
Could this be the one you can't explain when the night
is done?
Could this be the one who moves a little?
Takes a little more?
Could this be the one?
Could this be the one?
Could this be the one?

Could this be holds a little?
Feels a little love?
Could this be the one you can't explain when the night
is done?
Could this be the one who moves a little?
Takes a little more?
Could this be the one?
Could this be the one?
