

Lovers Electric

"Start Again"

Visit "[Start Again](#)" on MotoLyrics.com

do you know what I know
where the light hits the dark
we can brighten the world
with the smallest of sparks

do you see what I see
past the lies and mistakes
we can make or we can break
we've got all that we need

where gonna learn sometimes
where gonna fall sometimes
where gonna get burnt sometimes

but we can always start again
yeah we can always start again...

do you hear what I hear
there's a truth in our hearts
and we can push it away
or we can follow it's path

do you feel what I feel
something real has begun
there's a change in our eyes
and a mood in the air

where gonna learn sometimes
where gonna fall sometimes
where gonna get burnt sometimes

but we can always start again
yeah we can always start again...
