The heavy sun against my head
keeps me numb
i can not think or get my breath

A brave new world or timid minds?
we'll just see
it seems like everybody's fine

Feel like somethings changed
we can't make the same mistakes.
Feel like we're awake
and we can't wait another day

I won't give in
I won't give in
I won't give in

If your not on pills you will be soon
so whats wrong?
it's all about just getting through...

The safety nets are getting stronger
the love is here
and everyday it's getting cheaper

Feel like somethings changed
we can't make the same mistakes.
Feel like we're awake
and we can't wait another day

I won't give in
I won't give in
I won't give in
