"Rain on the Roof"

You and me and,
Rain on the roof,
Caught up in a summer shower
Drying while it soaks the flowers
Maybe we'll be caught for hours
Waitin' now to sun.

You and me
We're gabbin' away
Dreamy conversations
Sitting in the hay,
Honey, how long was I laughing in the rain with you
'Cause I didn't feel a drop
'Till the thunder brought us to.

You and me,
Underneath a roof of tin
Pretty comfy feeling, how the rain ain't leakin' in.
We can sit and dry just as long as it can pour
'Cause the way it make you look
Makes me hope it rains some more.

You and me and,
Rain on the roof,
Caught up in a summer shower
Drying while it soaks the flowers
Maybe we'll be caught for hours
Waitin' now to sun.
