When I have nothing
Will you make me think I'm someone else?
When I'm in trouble
Will you make think I'm fearless?
When I'm falling
Will you make me think I'm flying?
When I fail to rush to lose
Will you make me think I'm the greatest?

I need you now
I'll never beg
I'll never plead
I'll never fall down to my knees
But I never said I was better off on my own
I need you now

The only time you're off my mind
Is when I'm thinking
And I could live without everything but the feeling
Now I need to ask where did we go?
But do I ask or should I know?

I need you now
I'll never beg
I'll never plead
I'll never fall down to my knees
But I never said I was better off on my own
I need you now

I need you now (X4)
I need you now (I'll never beg, I'll never plead, I'll never
fall down to my knees, But I never said I was better off
on my own) X4
