"Snuffy"

I need some stimulation
Or some silence with a smile
This is an invitation
Won't you sit for a while?

I won't get too close
Just try not to get so hot
And sugar,
If you're gonna take me
Don't you ever never ever stop

On a park see-saw
A fat man on then he jumps off
Sewing needles help us pop
Hot air balloons when too high up
From the bottom to the top
And the elevator don't stop
Check the weather man
If it's the highs that get you down

You were just a little girl
So you don't know what you did
But I'm feeling so much better
Thank you so much, kid

They say, "Share and share alike"
It's nice to finally get it right
You are my fascination
You're my Jesus Christ

On a park see-saw
A fat man on then he jumps off
Sewing needles help us pop
Hot air balloons when too high up
From the bottom to the top
And the elevator don't stop
Check the weather man
If it's the highs that get you down

Highs just seem to get me down
