[Monoxide]

I'm a product of bust lips and cut wrists  
Rambuncous, when I feel like I'm gettin fucked with  
My wits connectin prophets to a light switch  
One flick permanent good night bitch  
Fuck with me and I can swallow your soul  
And watch Rap Gods crease like greenbacks with bill  
folds  
Outta control like an addict outta blow  
Tragic, cause the medicine I need I cannot afford  
Maybe I should pay a visit to his home  
Somebody tell the president I'm on his fuckin lawn  
Too far gone to be fixed  
Dilapidated like the trade center  
im hoping theres something to make me feel better.

[Chorus]

The president loves me  
The government hates me  
They're teachin me hate  
And stealin food from the babies  
They promise to be smarter  
But they know we can't afford it right  
I'm bout to kill a motha fucka tonight  
Innocent and darkness still arrays and  
from the point of light and And we play it like Adam  
and Eve  
And take the first bite

[Madrox]

So sinful, better believe this  
Me and my brother have returned just like jesus  
So peaceful, now the people  
We raise hell, so they assume that we're evil  
I probably could go out and get an education  
If a teacher could hold a job for 15 seconds  
In this fucked up economy, strippin me butt naked  
Of all the money I make, they keep takin it  
But ain't shit better though (Nope, no it's not)  
Just a little bit deeper in the debt we got  
Just a little bit closer to the ultimate fear  
Where you get one phone call to try and post bail.

[Chorus]  
The president loves me  
The government hates me  
They're teachin me hate

And stealin food from the babies  
They promise to be smarter  
But they know we can't afford it right  
I'm bout to kill a motha fucka tonight  
Innocent and darkness still arrays and  
from the point of light and And we play it like Adam  
and Eve  
And take the first bite

[Monoxide]  
Don't like society and what it became  
If not us than who the pass to blame

[Madrox]  
Got you feeling ashamed at the things that you see on  
tv

[Monoxide]  
Cause your earth bound heaven is still a pipe dream

[Madrox]  
What do I have to do  
When the plates on the table

[Monoxide]  
But the plates with no food  
While old ass people gotta go back to school

[Madrox]  
Pass the point of working overtime and paying dues  
This is your future  
See it and behold the life time of debt and enormous  
work load

[Monoxide]  
Passed on to you in courtesy of us  
Another trillion in the negative in God we trust

[Chorus]  
The president loves me  
The government hates me  
They're teachin me hate  
And stealin food from the babies  
They promise to be smarter  
But they know we can't afford it right

I'm bout to kill a motha fucka tonight  
Innocent and darkness still arrays and  
from the point of light and And we play it like Adam  
and Eve  
And take the first bite.
