[Madrox]

Blood, guts, infected cuts cover most or all of my soul
blinking Morse code when blood splashes in the eye
Stab a couple hundred times
Shit, I'm being generous, I saved all the rage for you,
you deserve the benefits
Stab a couple more times
Your body's like a blood sponge
break the rib cage and cartilage, and puncture both
your lungs
Take a deep breath for me
gurgle, filling up with blood, choking while you're tryin
to breathe, put that on my crimson love
Shiny red latex gloves
they say [i be hearin it] but then again your bleein' like
a pussy on its period
Stab a couple million times
this time in the face I will, watch the blood get stuck
and sure
really accentuate the kill
they said that [?] I should never leave your head or
corpse alive
so I'll keep stabbing 'til your body's fit and dead
Of course I saved all this pain for you, every ounce of
agony
now I'm pin cushion a voodoo doll, laughing while you're
bleedin out

[Hook]

Blood
All I'm looking for
Blood
All I want is your
Blood
When I feel like I'm finally at my breaking point, (blood)
When I'm thinking like "what the fuck am I stopping for?
I should not be stopping for anything but your spinal
cord"
I'll just put another cut on you 'til the blood's all gone
and the knife runs through,
when I pull it back out and I'll put it back in and that'll be

the way everybody's gonna end

[Monoxide]

Just wanna get a knife and go STAB, STAB, STAB, STAB
Don't know when it might be, though

Cuz it might be so in a frightening zone

All I wanna put in you is holes, anytime I'm losin control
just gotta find a better way to put a blade inside you,
that's the shit I mourn

Gotta keep going 'til I feel bone

and I ain't talkin thuggish and ruggish

but I wanna get crazy, number one enemy of the public
- Juggalo

And I keep it scrubby, [put a big cut in your tummy
But I'm gonna eat, need something inside me] when I
decapitate your honey

Gotta get my hands on something sharp and shiny

Gotta take my chance and try to stab in a trailer park
for Honey

But I wait for darkness

When I [race amonst all dark to find 'em out]

[?]

Well, I'm about to do my part and erase swine

And the rest of 'em cry like a chalkboard

And I got more knives than any store you can think of

Got stock for it, a lock goes off

Not gonna make me stop and think about the noise that
I just heard, and I'm -

[gunshot]

[Hook]

Blood

All I'm looking for

Blood

All I want is your

Blood

When I feel like I'm finally at my breaking point, (blood)

When I'm thinking like "what the fuck am I stopping for?

I should not be stopping for anything but your spinal
cord"

I'll just put another cut on you 'til the blood's all gone
and the knife runs through,

when I pull it back out and I'll put it back in and that'll be
the way everybody's gonna end

[Madrox]

Impale, exhale, entrails everywhere

Stab me too, if you can 'fore you die

Make it fair

What am I, a masochist? So what if I love pain

Stab a couple hundred times

Sharpen axe and play the game
Blood splattered everywhere, must have cut a vital one
Blood loss, turning pale, tell me - are we having fun?
I ain't close to being done, I've still got some blood in
me
Standin there dripping 'til I run my life's expectancy

[Monoxide]

And expecting me to be anything less than a luna-T-I-C
is like holding your breath and then hoping you still
breathe, it's not gonna happen
I give my life to the stabbin
And like a flame to a dragon I like to burn everything
that I've captured
But I've stabbed so many holes in your body that the
burning, it doesn't matter
I'm a human disaster and all I wanna do is take a knife
and go -
right through your back, sir

[Hook]

Blood
All I'm looking for
Blood
All I want is your
Blood
When I feel like I'm finally at my breaking point, (blood)
When I'm thinking like "what the fuck am I stopping for?
I should not be stopping for anything but your spinal
cord"
I'll just put another cut on you 'til the blood's all gone
and the knife runs through,
when I pull it back out and I'll put it back in and that'll be
the way everybody's gonna end
