To all the angels of broken wings  
Fly again, your flyin' again, your flyin' away  
Would you fly with me?  
Would die with me?  
Come and fly with me  
Come and die with me

When the times are gettin' harder to get you high away  
You pray for better days, better days  
Would you fly with me?  
Would die with me?  
Come and fly with me  
Come and die with me

I'm trying to deal with it  
Being different and all that  
Invisible broken wings are fixed on my back  
Pitch black your outta sight your outta mind  
Who you don't see now, your gonna forget overtime  
Let's rewind now how your wings got broke  
Maybe it's because you took life for a goddamn joke  
We the freekshow circus  
Underated on purpose and can't muthafuckin' hurt us  
I can't eat, causin' panics in the streets  
Everybody runnin' you can see the axe comin', call us  
Outcast we the strange on display  
But little do they know I give a fuck what they say  
I represent all the killas and people who lost faith  
Heaven's a journey and hell's just around the way  
Where it's at  
Just around the way  
Heaven's a journey but hell's just around the  
Muthafuckin' way

To all the angels of broken wings  
Fly again, your flyin' again, your flyin' away  
Would you fly with me?  
Would die with me?  
Come and fly with me  
Come and die with me

When the times are gettin' harder to get you high away

You pray for better days, better days  
Would you fly with me?  
Would die with me?  
Come and fly with me  
Come and die with me

Automaticly, I battle with anxiety  
Cursed as a child circulated in society  
Raised in the image of man don't understand  
Or humility plan that contracts like rubber bands  
On the sidelies where I sit to spectate  
On the normal servant to survive to circulate

To the base of the universe and cosmos  
The only way out is to death or overdose  
If they make it you can brag or boast  
You be the game  
The life you know will never ever be the same  
Transformed in a flash or light into a ghost  
Lusted and surrounded by the second hand smoke  
Wings broke so you can't fly to heaven today  
But hell's right around the way, right around the way

To all the angels of broken wings  
Fly again, your flyin' again, your flyin' away  
Would you fly with me?  
Would die with me?  
Come and fly with me  
Come and die with me

When the times are gettin' harder to get you high away  
You pray for better days, better days  
Would you fly with me?  
Would die with me?  
Come and fly with me  
Come and die with me

I had to end it all, life was a drag  
Roamin' the earth, with the rest of the body bags  
I love the fact that I'm dead, but not injected  
Cuz everytime twiztid's on I'm ressurected  
I can't fly, my wings don't work so I  
Get high so my feelings ain't hurt  
Fuck the world, don't ask me for shit  
Dead and gone but it still don't quit

Children of the night never feel the sun  
They never walk in the path of the chosen one  
They got broken wings that are incapable to fly  
Hair like spider legs and milk white eyes

[x2] My wings are broken and I can't reach to the sky  
I'm just a shell of a man without a spirit inside  
I need a moment with you so I can clear out my head  
To you I'm alive  
But to the world I'm dead

My wings are broken and I can't reach to the sky  
Come and die with me

Man I like chicken if it's barbeque, barbeque, barbeque  
I like chicken if it's barbeque, chicken if it's barbeque  
Barbeque barbeque, I like chicken if it's barbeque..
