(feat. Tech N9ne, Big Krizz Kaliko, Potluck)

[Big Krizz:]

You mother fuckers want to sit me up and kill me

[Tech N9ne:]

You know what I mean

These mother fuckers seem to be all about dreams

Having my cake and eating it

People see weak in this, greet the beast sink your teeth
in this

Even felony hand me calamity

Cannot be sitting with insanity trying to damage me

Even niggas who work with me having fantasies of
erasing their men and me

Look you blood suckin', mud fuckin', punks, chumps

Gay faggots, maggots trying to get paid really better
stowed away to 30

Hearing your call, bloody murdering y'all

Scurry and focus conserving the brawl

Whoop the CHASS niggas and I pass we burry 'em all

[Big Krizz:]

Wait, wait, wait, wait

'Cause some people look up inside of my head

To see why I keep a gun on the side of the bed

And I'm watching out for what's in the house

[Tech N9ne:]

Because I'm paranoid that every noise is means for me
to kill

Grab my mm. kill

I'm a walking zombie obviously

Madrox:

Fell like I'm going insane, losing more than a little bit

Of my life I'm thinking about killing it

[Tech N9ne:]

Or reverse the gun and curse the one whose purpose is
to hurt us

Now that you got the nerve he's buried you both in the
first place

[Chorus:]

Stay awake, 'Cause if you want to survive
The way for you to stay alive
Is keep far away from me
(Stay away from me, let nobody break from me)
'Cause I can surely take you can't hide from me
All of them I will bury, bury them all

[Monoxide:]

It's a shame to be hated on so angrily
And all these people who came to see the demise of
me
And the disguise we in analysing me to the sight of me
When I live in society, with all these people we call
friends
And when the hook-up's gone it all ends, so we sit there
alone and pretend
Hoping no one will notice when you leave use like a
latest trend
'Cause that's just how you bitches tend and you wonder
why I stay awake
With a back full of knives and a mind so Twiztid I can
hear them say

[Madrox:]

That's why we're center of the mix, center of attention
So many levels of my mind's dimension
Inquisitive minds always asking questions
Shoot 'em all down that will loose attention
Dark, sarcastic, quit pretending
Tell it in their vibe when we try to be-friend them
See it in their eyes with the money we spending
Cover your legs because you know we can attend in
avenging
Yes its self-oppression, too damn dumb can't learn a
lesson
Heart still broke no sign of affection, heavily
medicated I forgot to mention
Dark black work that's my affection, double headed
axe that's my protection

Sling to the blood bring resurrection, believe and
expect in the unexpected

[Chorus:]

Stay awake, 'Cause if you want to survive
The way for you to stay alive
Is keep far away from me
(Stay away from me, let nobody break from me)
'Cause I can surely take you can't hide from me

All of them I will bury, bury them all

[1 Ton:]

Its catastrophe stop harassing me asking me
(Too many goddamn questions)
I'm a compassing and not a blasphemy baffling
(So I gotta count my blessings)
One: Never do what they do
Two: Only you can be you
Three: And everyone want to keep scoring me (whores)
And not too many people want to go hardcore
Some get lifted, watching the Pistons
And now he's spitting wicked shit like it was Twiztid
Freaks don't get it want to get it
Got to let their lip go and run off with it
I'm hitting the wall
Got to stand up when it's scary to fall
Got to man up when your making the call
And be tough when your walking the hall
Twiztid, Potluck and I bury them all

[UnderRated:]

My whole life I was struggling to be free
And now it's hard to believe that it's me
When I'm flipping the rhythm and taking over the mic
I'm like a thief in the night with the venomous spikes
Getting better and better with every rhyme that I write
Because it's been a long time let me shed some light
Up in the moon with the candle light
I was flipping every word like phantom white
Don't judge me dude you don't know me man
You don't know my crew or who the fuck I am
Step back with your redneck views
We ain't giving a fuck we do what we choose
Oh I'm rude? Oh my bad, sorry and shit I gotta take a
stand
You said making it there we need the man with a plan
Not another mother fucker want to face this man
Listen, damn understand just 'cause your rich doesn't
mean you the man
They ain't getting no better, look around its all bad
The American dream make the Federal flag
Little kids get lost payed why so sad
Even the head of the class crash go bad
Sex and the drugs on the streets we ran
Mama never told me it would be like that

[Chorus:]

Stay awake, 'Cause if you want to survive
The way for you to stay alive
Is keep far away from me

(Stay away from me, let nobody break from me)
'Cause I can surely take you can't hide from me
All of them I will bury, bury them all

Stay awake, 'Cause if you want to survive
The way for you to stay alive
Is keep far away from me
(Stay away from me, let nobody break from me)
'Cause I can surely take you can't hide from me
All of them I will bury, bury them all
