Leave me a sec I was here from you ignorant  
counterfeit  
Normal muthafuckas so proud of the innocents  
Forever in this bitch fuckin' with the dead  
With invisible x's in the middle of our forehead  
Act like you don't know  
In the mist of the twiztid serial killin' juggalos  
We stay different  
I guess different  
Mind, think alike with the children of the night  
Y'all wanna fight? Cuz if it gets this way  
There's gonna be more feelings hurt up in here tonight  
Guess what's it like when you fuckin' with us?  
And then you'll get fucked up and shit is also serious  
Don't even speak on us  
Now I know that everyone got they own personal reason  
for hatin' us  
But I don't care bitch, shut the fuck up  
Try strange, derange, define different

[x2]

I'm different  
I'm not like you  
I'm different  
I like fuckin' with voodoo  
I'm different  
I come from the darkside  
I'm different  
I've seen the dead come alive

I'm truly different by the rest of the world cuz of my axe  
Tripped out facts and bold ass contacts  
Not normal, nothing in comparencin'  
Stop frontin' bitch use embrassin'  
Separated from the rest at birth  
And the blood on my face is cursed  
I'm leavin' the earth, represented by killas and  
juggalos  
And all that don't know should die like some dumb  
hoes  
My shit changes mindstate  
Spreads clickin' in the cold in most states

And I hope you both hate

You can't stop what you can't see  
I'm slippin' in to your backdoor tyin' up your family  
Unexpected and unexplained I'm underground  
And I'm INSANE!!  
People really talk the talk but I'mma walk the walk  
And leave you thrown' in chalk, bitch

[x2]

I'm different  
I'm not like you  
I'm different  
I like fuckin' with voodoo  
I'm different  
I come from the darkside  
I'm different  
I've seen the dead come alive

I'm different like I never existed  
Different like that 50 pack smokin' bud toker from  
twiztid  
Like I'm segregated and all  
Hold up, fuck that  
A better word is playa hated  
Cuz it's all for real  
If you come for weak shit then the axe will  
I said, you can see it in my soul  
I'm different cuz we twiztid for life with juggalos

We walk through walls, sleep with the bats  
Been to heaven and hell and still can't relax  
At least my momma call me strange  
Said I would be dangerous if I was givin' a brain  
I'm a serial killa that's what I amounted to be  
In this world in a dead lock between you and me  
I live behind a mirror and I'm every bad dream  
So believe what you heard and see cuz I'm different

[x3]

I'm different  
I'm not like you  
I'm different  
I like fuckin' with voodoo  
I'm different  
I come from the darkside  
I'm different  
I've seen the dead come alive
