(feat. Dark Lotus)

[Jamie Madrox]

Is it a vampire that you see before your eyes?
Before you focus, I dematerialize
And vanish into thin air
So all you scary bitches better beware
For six petals of the Lotus Pod, prepare
For the coming of the creatures in dark with blind faith
The battle is before us, the target is Hell's gate
I'm the first general of the Cobra-Khan Shadowcasters
The black demon, Madrox, drunken ninja master

[Anybody Killa]

The night air makes me awake from my daytime dream
It always seems like there's a killer loose, living in me
I try running from the shadows into the moonlight
streets
In search of hoping to find a place like me
Offering forgotten souls, dripping blood,
give the hatchet respect
The Lotus all up in this bitch, giving free chin checks
Suffocating from the cellar cause we grow with the
stars
Even the drunken ninja's knowing who we are,
muthafucka!!

[Chorus 2x]

Drunken...
Ninja...
Master...
Lotus...
Lotus...

[Monoxide Child]

Blood bath, arms open with my wings spread
I'm in this burned down house and
I'm surrounded by the dead
Now visualize
I can reach a cloud sky high
And I can make it all turn red before your very eyes
Shadowless in the mirror like oxygen

Fuck us being off the hook, bitch-boy, we off the hit
I keep hitt-ating like monsters when the trees blow by
And I'm demented with this killer inside
Who wanna die?!?!

[Violent J]

Look at me, I scale walls
And throw Poof balls
I seek and destory the skulls of devils without a cause
Chinese stars, I throw these
For the Dark Lot-eeese
I represent the dead
Louise Spicolli's
And Bruiser Brodie's
Look at my face, Jesus, don't ask my religion
Or I'll draw this Hex ninja sword and make my incision

I'm like Shaggy with this beat
I'm weak
I'm sweet
A drunken ninja master, I'll fuck you like,
ah, Choko's feet

[Chorus 2x]

Drunken...
Ninja...
Master...
Lotus...
Lotus...

Ha-ha-ha-ha-haw-haw-haw-haw-haw
Ha-ha-ha-ha-haw-haw-haw-haw-haw
Ha-ha-ha-ha-haw-haw-haw-haw-haw
Ha-ha-ha-ha-haw-haw-haw-haw-haw

[Reversed message by Jamie Madrox]

My religion is my religion and that's for me to know.
The lotuspod is in the picture and in the dark is how we
roll.
We the drunken ninja masters with the drunken ninja
flows.
Drink blood from the bodies, steal life from the souls.

[Blaze]

Drinking
Smoking
Thugging
Maxing
Lifestyle of a ninja straight out the fucking casket
Fucking with a dead man, you'll get your head took
Sacrifice for the Lotus Pod, for Blaze a crook

And if any punks wanna step up and test your luck
You find yourself laying in the back of the truck
Muthafucka, I'm a drunken ninja master thug
Fuck 40's of Bud
We drinking 40's of blood
(yeah!!)

[Shaggy 2 Dope]

Grab the bottle, pop the cap
Throw it back
Expired bitch's blood flowing down my neck
Constantly putting shit in my body
direct from Hell's bowels
Causing my hands to do things out my brain's control
Like, let's see, umm....grabbing and squeezing
Waking up next to lifeless bodies that ain't breathing
Blame it on the blood, voodoo, or alcohol
And you'll just make this call faster
From a drunken ninja master
You fucking bastard!!

[Chorus]

Drunken...
Ninja...
Master...
Lotus...
Lotus...
Drunken...
Ninja...
Master...
Lotus...
Lotus...
Drunken...
Ninja...
Master...
Lotus...
Lotus...
Drunken.....
