I swallow razor blades and spit up blood  
Cut out my heart and gave it to my love  
I hung myself with an extension cord  
And dangled high above the ouiji board  
I heard the wind in the trees and it made me scream  
I'm wonderin' if it's real life or just another dream  
I need something, someone  
To help me with my brain because it's fallen apart  
I fall apart

I've fallen to pieces but I don't know why  
It's all because  
It's all because we're all afraid to die  
And if you think  
And if you think about it, it will eat you  
From the inside out till you don't know what to do  
You fall apart

I'm drinking gas smoking square after square  
I'm looking for this place but I don't know where  
I'm just a soul in the land of the lost  
I feel the blood in my lungs when I cough  
I cut my hands off in the dark and just sat there and  
bled  
Why the whole world fell apart inside of my head?  
I need something  
Someone  
To help me with my brain because it's fallen apart  
I fall apart

I've fallen to pieces but I don't know why  
It's all because  
It's all because we're all afraid to die  
And if you think  
And if you think about it, it will eat you  
From the inside out till you don't know what to do  
You fall apart

I broke my rib cage open with a butcher knife  
And open up the wound to show my life

I'm not the devil but your momma swear were one in

the same  
And we didn't make it this way so were not carry in the  
blame  
I've been down and out  
I know what that's all about

You fall apart  
I need something, someone  
Help me with my brain, help me with my brain  
You fall apart  
I need something, someone  
Help me with my brain, help me with my brain

I've fallen to pieces but I don't know why  
It's all because  
It's all because we're all afraid to die  
And if you think  
And if you think about it, it will eat you  
From the inside out till you don't know what to do  
You fall apart

Jumped outta twenty story window today  
I got back up and then I walked away  
My head was screamin' for a tylenol  
Open the bottle and I ate 'em all  
My head was spinnin' in a daze and I need to relax  
So where's my chainsaw, butcher knife and  
muthafuckin' axe?

Something, someone  
To help me with my brain cause it's fallen apart  
I need something, someone  
To help me with my brain cause it's fallen apart  
I fall apart

[x2]  
I've fallen to pieces but I don't know why  
It's all because  
It's all because we're all afraid to die  
And if you think  
And if you think about it, it will eat you  
From the inside out till you don't know what to do  
You fall apart
