*[Jamie Madrox]*

Your whole life's about to change in the next 20  
seconds  
As you glance there's a lady running at your car half  
naked  
Bleeding from her neck to her chest  
And four guys chasing after her with axes and they  
look fucking possessed  
Without thinking you unlock the doors to lend a hand  
Before she gets in the car they're approaching and  
coming fast  
Hit the gas and she won't stop screaming  
She keeps saying over and over that she was mauled  
by a demon  
Blood, so much blood it was unreal  
She'd go quiet for a second then go nuts and grab the  
steering wheel  
Just calm the fuck down, you're scaring the shit out of  
me  
I'm gonna take you to the hospital and leave you in the  
lobby  
You're gonna be fine, side wiped in my blind side  
By a deuce and a quarter with one headlight  
Just then I looked him right in the face  
And seen two glowing eyes peering out of a pillow case  
Now what the fuck is that? I think your friends are back  
Hey lady wake up, you're bleeding all over the dash  
As I pushed her on the shoulder, she turned around  
and bit me  
First the guys with the axes and now this bitch wants to  
kill me

*[Chorus]*

Hom-Sha-Bom  
Release the spirit and move along  
We'll be coming  
They'll be coming for you and it won't be long  
Hom-Sha-Bom  
Release the spirit and move along  
We'll be coming  
They'll be coming for you and it won't be long  
This body doesn't belong to you (I know)

This body never belonged to you (I know)  
This body doesn't belong to you (I know)  
This body never belonged to you (Just go)

*[Monoxide Child]*

Now they're on the side of us  
I can either run us both off of the road or crash into a  
school bus  
I'm looking out and see one of my front wheels  
Go bouncing off a tree and now it's headed for my  
windshield  
Pieces of glass are in my throat  
And this bitch is in the front seat laughing like it's a  
joke  
And now I look and see them coming, walking  
They got their axes and they're talking in Aramaic or  
maybe it was Latin  
I'm kinda woozy and I'm starting to trip  
Cause this bitch must have bit a fucking hole in my  
wrist  
I feel it thriving like a heart attack  
But I can't think about that and I all see is the end of a  
bloody axe

Come smash through, all in my windows on both sides  
And all these hands grabbing us out the ride  
And choke holds applied and I'm thrown across the  
street  
Face first and I'm so weak that I can barely even speak  
There's gotta be some kind of code or witch practice  
Some sort of a horrific movie of Black Magic  
All the blood in my eyes, it couldn't hide  
And by the screams I heard, they must be ripping out  
her insides

*[Chorus]*

Hom-Sha-Bom  
Release the spirit and move along  
We'll be coming  
They'll be coming for you and it won't be long  
Hom-Sha-Bom  
Release the spirit and move along  
We'll be coming  
They'll be coming for you and it won't be long  
This body doesn't belong to you (I know)  
This body never belonged to you (I know)  
This body doesn't belong to you (I know)  
This body never belonged to you (Just Go)

*[Jamie Madrox]*

I can't see, too much blood inside of my eyes

But I can kind of make out silhouettes to my surprise  
I'm in the clear, no one surround me  
But across the street it sounds just like the Exorcist  
movie  
Screaming, crying, parked cars flying  
Around and smashing into the ground, it's devastating  
The strange motherfuckers with axes got us  
surrounded  
I wonder if they're gonna kill her, my heart's pounding  
Drowning in anticipation  
I mean if they kill her, they're killing me and that's a  
fucked up situation  
She's changing into a demon with every chant  
They're saying in that language that I still don't  
understand  
Then a burst of light exploded  
And the ground started shaking and the side of a  
building a portal opened  
She doesn't look anything like she did before  
She's got the body of a snake with wings and devil  
horns

*[Chorus]*

Hom-Sha-Bom  
Release the spirit and move along  
We'll be coming  
They'll be coming for you and it won't be long  
HOM-SHA-BOM  
Release the spirit and move along  
We'll be coming  
They'll be coming for you and it won't be long  
This body doesn't belong to you (I know)  
This body never belonged to you (I know)  
This body doesn't belong to you (I know)  
This body never belonged to you (Just Go)
