[Jamie Madrox]

How i live

My microphone is my outlet

To project my style and see how loud the crowd can get

No non-sence this is how you need to be livin

Dude this is the life we show improve on each and every move

We need some money smokeing bitches to clear our vision like visine

And a 40 of O-E for the I.V.

So gimmie gimmie cuz im livin for the fame

And i aint leavin till i get all that i can and then some

[Monoxide Child]

I see it tatted on ur back and ur arms

And im a static you a deal to throw whats killin ur moms

I know ur pops dont understand he thinks ur buildin a bomb because you sit up in ur room and every word you sing along

And it seems every word comein outta ur mouth is raw

And the truth is they dont have a clue whats goin on

If they would just shut the fuck up give me a listen then they could hear it all in my voice exactly how im livin

Thats how i live

Ridin on the streets that we live

(Thats how i live)

Tryin to take as much as i give

(Thats how i live)

Plantin bad seeds in ur kids

(Thats how i live)

Dont be actin like you know who this is

(thats how i live)

[Jamie Madrox]

How i live

Tinted windows on suv's im smokein

Purchased from grammer and words spoken

Uh hustla i was born and raised

With the knowlege that you gotta do what you gotta to get paid

Cant respect game

Ill see you on the grind
Same heart same passion its my three of a kind

Its TWIZTID and yuh boy proof from the dirty dozen this
shit was destined to happen dont ever say it wasnt

[Proof]

Please belive it we sit and re-think it
Spit flames just blow ur mind and re-heat it re-seaded
Slim nov for cons fifty knee beezy
And necro jigga its d tweezy
Tiwztid we bees the misfits
Keep squeezin bisquits
Street clean the district
This means restricted
Family nah ambity time
You cross one of them you cross me im layin you down

[Chorus]

[Monoxide Child]

Affiliated with sum folks that most of yall aint really
heard of its keepin me secret just like a murder
With blurred vision im undercover like burn victims
witta temper like a pitbull waitin my turn sick em'
Lickin my chaps why you sit in the same spot like street
sighns while i resurrect the whole east side
Thats how i live and you can love it or leave it
But for you to do what i do it'd take ur whole life to
achieve it

[Proof]

My cousins from other mothers they dozens they
brothers of us mother that icp be feared recoverd that
gang among us
Pac and big is the world
Wipein balde exhaust
Tryin to repair the damages and managin they j and ob
So wish to esham
Detroit in these palms
We tryin to get back to these local cats to point where
there from
So i spit it how im in it a minute how i spit it forever
walked in it lets get it how we live it its good

[Chorus x2]
