[Chorus]

I just want to see  
Everybody bleed  
Can you envision  
My darkest fantasy  
Come with me  
Won't you run through the middle of my mind and see  
How fucked up it can be! {x2}

[Monoxide]

You don't poke or provoke me when I'm smoking  
Razor blade out of my coat and slight your thought  
clean  
Drive you out on a boat and now you're fish feed  
All because of my weird addiction to make a bitch  
bleed  
(gotta die)  
Since a kid I been in all kinds of counsuln  
(ya gotta die)  
They tell my momma that an evil is inside of em  
I'm dangerous and can bust at any second  
My wig split and if I explode clear the wreckage  
Car crash and I did that shit on purpose  
Had a hooker with me and she's in need of medical  
service  
Coulda took her with me, but instead I left her for dead  
And now the lookin for me so I been hidin out in the  
shed  
I been in it for a week now  
And I been fendin just ta get somebody bleedin' but in  
the meanwhile  
I lay low unless the bleedin won't stop  
I got bored and cut of my hand with one chop

[Madrox]

Say Hey!  
I don't think I like it anyway  
But you're not gonna tell me what to play  
Cause I got a flava that's so addictive I know you'll dig  
it  
O Kaaaayyyy  
Come on now we can play a game

Grab yourself a shovel, dig a grave  
Promise not to die  
It's so addictive I know you'll dig it

Sometimes brain waves get scrambled  
I go blank and fly off the handle  
More hot air for the birthday candle  
Celebrating another year off in the gamble  
(hell yeah)  
So thankful, so appoligetic  
So not what I expected  
That it's border line pathetic  
(fuck ya'll)  
But who am I to judge  
I don't hold a grudge  
Hold the gat to my dome and pray the trigger don't  
budge  
(blaaaa)  
Love in the chamber and I aim to kill  
The man in the mirror for a change of feel  
Switch the pace up, paint his face up with bloodstains  
Then redeacorate the bathroom with most of his brains

[chorus x2]

So addictive I know you'll dig it o [x4] kay
