### "Sickness"

Visit "[Sickness](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Everywhere I go its always average other people die  
wipe the population just by simply walking by,  
I've been here and there and everywhere the outcome  
is the same  
more bodies slumped over every year I grow and age  
it started when I was little everything I touched  
whitered and died  
but it was only little animals and plant life  
my power's so strong now if leave the house  
I know that they will come up but i havent figured out  
why

This disease is airborne I don't need no transfusion  
you can be in the same building and still breathe the  
deadly fumes in  
I'm immune so they gave me a tomb  
cuz im a carrier  
In hopes that they can use me as a weapon to clear the  
area  
this sickness mutates to a point it intergrates  
potential for disaster too great for you to fail-safe  
you cant keep an animal caged that wasnt meant to be  
im transforming the motions the plague of the century.

Spread the sickness, i will not die again  
I don't wanna be alone anymore  
I don't wanna feel the pain anymore  
Spread the sickness, i will not die again  
I don't wanna see thier face anymore  
I don't even know their name anymore.

I dont know how I survived  
all I know its like a dream and im the only one alive  
I never heard a scream or cry  
and really im not even sure  
that in the process of what happened I didnt die  
All i smell is death in the air  
and i can see the bugs crawling and the bodies laying  
everywhere  
Walking in the valley of death and I believe it im the  
last one left

Now im running low on water  
and im thirsty enough to take a drink out of the  
puddles  
that all slowly start to fill up with blood  
and im the only one breatheing that ive seen in a week  
and im weak and i need to eat so i know this aint a  
dream  
and i scream at the top of my lungs, nobody comes  
but I can hear my voice echo all the way to the sun  
somebody really forgot me when in and earth's won  
and I just wanna know why am i the last one.

I will not die again(4x)

Spread the sickness, i will not die again  
I dont wanna be alone anymore  
I dont wanna feel the pain anymore  
Spread the sickness, i will not die again  
I don't wanna see their face anymore  
I don't even know their name anymore

I don't wanna be alone anymore  
I don't wanna feel the pain anymore  
I don't wanna see thier face anymore  
I don't even know their name anymore
