She was the type of girl
Get me in so much trouble
Head over in this thats why i love her

I dont like the way that she talks to me
When she tells me those that id rather not hear
In my ear
But it comin out her mouth an its hd clear
She dont like the way that i talk when
Im sayin that im walkin
out the door with no remorse
4 this
An now shes pissed
I dont think she loves me
But attraction aside an the facts above me
See the look in her eyes when she takin her close off
Treat her like a wash machine an drop a load off
She dont think that i give a fuck to care
An id rather die
But the truth of the matter its all a lie
An i cant get her outta my mind
Im so blind

Chorus
Im tangled in these spider webs an cant get out
Its like ya breakin my heart when you open ya mouth
Its like ya so exided when your bringin me down
Bringin me down
Bringin me down
Bringin me down

I dont like the way that she flirts
With mini skirts
An tight shirts
An we drinkin at a local bar
An she given everybody the fuck me eye
She dont like the way im obsesed
An
Why she werin a dress
Man
Need to cover her brest
An maybe theyll leave her alone

I dont like the way shes so care free
Thoses widows how dont call me
The condoms in the drawr
Aint there no more
So she must be cheating
She hates when i keep callin her cell phone
Like i got thrown in jail hoe
An all i realy want is the 4 diget #z to her voicemail
pass code

Chorus

Im tangled in these spiderwebs an cant get out
its like ya breakin my heart when you open ya mouth
Its like ya so excided when ya bringin me down
Bringin me down
bringin me down
Bringin me down

I dont like the way that she left me
Strung me alone an upset me
Broke my heart in to an like a trophy she kept me
She dont like the fact that i wont leave
Callin the police on me
Why you actin so phoney
Like you dont kno me baby

Chorus

Im tangled in these spider webs an cant get out
Its like ya breakin my heart when ya open ya mouth
Its like ya so excided when ya bringin me down
Bringin me down
Bringin me down
Bringin me down

(Chorus repeat)
