[Monoxide:]

Now I don't think that anybody really wanna get inside  
of my twisted mind  
So sick your never gonna find something  
Like it like me like this like mine  
Like out of the ordinary  
I want more to bury  
Full of more gore  
Than a chopped up whore  
Make a tortured porn  
In a middle of a mortuary  
Nothing left but the bones to carry  
Put a bunch of holes in your capillary  
Anybody claiming that were adversary  
I don't give a fuck if the cops pull up shotguns out or  
the sirens blarin'  
Don't wanna get it scary  
I'm very  
Until the dead rocking in the cemetery  
Since I was a very little kid  
Been waiting for the brighter day  
So they can take it all away  
Well we got sick & a made a little family  
With a name & grain with a sanity  
Bigger tragedy  
To a fucked up galaxy  
Consumed by so many little bitty fallacies  
Gotta find another way to get up out of the hell & start  
handing me  
Unstoppable like an HIV  
And your arteries make it hard to breath  
Like a hand around your neck & I start to squeeze  
And all I wanna do is bring em' all to knees  
They wanna make it hard for me  
In a land of apologies  
In a hard days anything more than a shut front door  
with a sign says  
"Don't bother me"

[Chorus:]

I can reach for the stars but I'll end up down here

No matter what it takes  
I'ma still keep on fighting I'm unstoppable till' my last  
breath & my heart stops beating  
I will never give up on me again  
No matter how rough  
& no matter how much shit this life get shovled in my  
path I'ma still be all ok

[Madrox:]

Cause' they label me abomination  
The whole world is destined to hate me  
So I can only bottle up for so damn long  
Before the glass get's a crack & I over flow  
'Cause I'm over the line  
And I'm out my mind  
Never like to deliver when it should of been mine  
But a deal to survive like a shadow of the night  
Next style is my style so rub it over kind  
(And I will not die)  
No matter what they put me to  
Broke through the chance that they put me through  
And it's true unstoppable any motherfucking thing  
anyone can do  
Not saying that I think I'm better  
But this shit right here gonna live forever  
This legacy me & him built together  
Every word that they snake can't fuck with me never  
(Never never never)  
Depending on the weather  
Even if it's sunny skies  
And it's gloomy inside  
When the world outside  
Just don't seem right  
But I'm sitting by myself watching it pass by  
And I'm thinking about the lies that they told me so  
Cause I never had a chance to just let me grow  
But they blame it like pesticide  
With a smile on my face waiting for me to die off slow  
(But I will not go)  
Never be cold  
When it's 20° degrees below my head to the zero  
Only like a eskimo I'm no hero  
When the voice from the soul carry on like an echo  
Unbound out of control  
And everybody knows  
That were ready to explode  
As we lock & load  
And incinerated brain the automatic flows  
Unstoppable

[Chorus]

[Madrox:]

Cause your feeling like the dark in the night  
With a song that's your's cause the beats so nice  
And the lyrics so right  
And it grips so tight  
That your blown away like it was dynamite  
Is that the reason that your feeling attracted  
Are you compelled by need of in the casket  
I know they probably wanna label you dramatic  
And you ever wanna bury you in the sadness  
So many to just to come to the madness  
Others reach for lights in the midst of the blackness  
In a need to elevate that attracts us grip to some silly  
bitches status  
Like a plague and a chain  
With a crack in the window  
Paint stained with hate  
Till' it's broken away  
From frame  
To sane to deranged  
And everybody else seem's to remain the same

[Monoxide:]

Your looking for something to places your never gonna  
get it accept it  
Our painted face is rejected  
An abomination infected  
With so much hatred collected  
How can you say you didn't expected to go this way  
Like bad directions  
There looking at me like a weapon  
We got the world's attention  
Were like this great invention  
There all to afraid to mention  
Shun me like bad intentions  
But we'll see who really had agendas  
A misconception I don't wanna be in your fucked up life  
or interventions

[Chorus:]
