*[Monoxide Child]*

Karate chopping mothafuckas like (Hiyah)  
Lord of the Rings, I'll make the dragon breathe (Fiya)  
It won't stop till my heart beat expires  
And then I keep it going till the underground retires  
We keep it darker then a vampire  
With your body in my trunk, with my bumps and my  
spare tire  
Monox I-D-E, when disaster strikes, it looks just like me  
A wild germ set loose, I'm abused by most  
I'm a plague that will wipe out most of the east coast  
Come with me, run with me, try to escape  
We love, not hate, now can you relate?  
Burning me inside, with the pain of never knowing  
Can't explain why the rain don't change, it keeps  
glowing  
I'm a lighting rod  
Rocking the dead, a little bit frightening and odd  
But I never forget, because you know

*[Chorus x2]*

We be the all doing, the all seeing, the all knowing  
Chainsaw, baseball bat, and axe toting  
Eastside, white trash with tattoos  
This is how the fuck we live  
This is what the fuck we do

*[Jamie Madrox]*

Twiztid in this bitch, double 0-tre  
And we crush any nemesis  
Jamie Madrox, got shaped like a jellyfish (Like a  
succubas)  
Brain of a scientist \*Gibberish\*  
I'm the adbomible beast from the east  
I'm the walker of the dimension X, in search of inner  
peace  
I'm everywhere and nowhere at the same time  
Scales of the book, a savior of mine, remains by my  
side  
Inside, where all the negativity goes  
Sprayed down with herbicide so love will never grow in  
this host

And I'm changing forms, scared to death to come in  
view of great thunderstorms

It hurts far worse, lighting never strikes in the same  
place twice  
You got to be precise to exist in the midst of the don't  
say shit  
To the maniacs with eyes in the back of their head

*[Chorus x2]*

We be the all doing, the all seeing, the all knowing  
Chainsaw, baseball bat, and axe toting  
Eastside, white trash with tattoos  
This is how the fuck we live  
This is what the fuck we do

*[Jamie Madrox]*

Hostile  
Slapping a chicken head and our styles evadable no  
matter what you said  
Are you stupid? You need to clean your earholes  
Smash on a clown no matter how many zeros  
These superheros don't ride brooms  
Smoke mary jane, and leave the club with some  
mushrooms  
I don't need no X to fly high, who's the next to die?  
I'm already high and trying to stay alive

*[Monoxide Child]*

Now everybody blaze a bag of weed and relax  
And live your life through the underground with the  
maniac  
Why they saying that? Is it cause of my tat? Because  
I'm white and spitting a rap?  
Is it cause I keep coming with an axe and an "x" in the  
middle of my head?  
And I wish I was dead?  
The only thing I wanted instead was to be left alone  
And stay the fuck out of my zone  
So come and get me

*[Chorus x2]*

We be the all doing, the all seeing, the all knowing  
Chainsaw, baseball bat, and axe toting  
Eastside, white trash with tattoos  
This is how the fuck we live  
This is what the fuck we do
