yeah  
(it don't stop)  
yeah  
check it out  
(it don't stop)  
come on

#### **CHORUS**

we love to flirt  
to chase the skirts  
get to know who we are  
girls in the park  
cuz when we in the club  
we keep it extra hot  
they love the whips the chicks  
the neighborhood superstars  
boys on the block  
thugs in the hood we don't never stop  
never stop

i go where the masses go  
we all act natural  
think rational  
those \_\_\_\_ some blow(?)  
cats have to know  
master your craft  
stash your dough  
stay on the low  
but never be the last to know  
the next level or plateau be international  
the grass'll grow  
you know  
cash'll flow  
ask a pro  
do the math  
get it fast or slow  
your girl's passin gold like a fashion show  
the sun'll shine  
make it feel like the summertime  
shorty's runnin' blind  
lookin like they just done a crime

click's want they pockets thick  
cop a \_\_\_\_  
proper chick  
street scholarships  
politic your dollars quick(?)  
\_\_\_\_ we \_\_\_\_  
cuz we was the first in the pack  
they say "herb's a trap"  
now it's worse than that  
so i observe the \_\_\_\_  
let my words attack  
until it \_\_\_\_ the rap  
until the earth collapsed

-Chorus-

you know it seem like life's just begun  
my lust is young  
i wanna find me a lovely hon  
crush me one  
bust a \_\_\_\_  
mouth to mouth resuscitation  
let her hug  
and when i'm done  
tongue touch me 'til i'm numb  
but first the outcome is income and then some  
get enough to run and spend some for fun  
then me and my thugs  
we come in the club  
we swung lovely  
watch how big the buzz be  
trust me son  
every ghetto got game in it  
fame in it  
we remain in it  
waitin for the main event  
like the days on the corner  
we watch the world go by  
on the nights that wasn't right  
like when a good friend died  
yo the street's got a deadly hum  
like a drug  
we gotta find a way to fill the neighborhood with love  
from the park to the block  
to your favorite spot  
it don't stop

-Chorus-

i spend the prowl(?)  
i been on since a child

it don't make sense to browse  
it's intensive now  
women in crowds  
i search for the gem in the \_\_\_\_  
who stay original  
even when the friends around  
since her style  
always commands a smile  
and her femme fatale  
cause men to growl  
i take precedent of principle(?)  
then arouse(?)  
still the treasure is rakim  
the smooth criminal  
damn, it's on  
keep my hands on  
this amazon  
legs for marathons  
voice like sarah vaughan  
precise, alright  
i like when her \_\_\_\_ entice  
with a spice of life  
flow times twice as nice  
and when she go shop  
the show stop  
shock the whole block  
she so hot  
i clothes shop  
put it on lock  
body that won't drop  
bounce like hip-hop  
it don't stop

-Chorus- (2x)
