"Big Brother In Your Bedroom"

It's in every crack and now it's in every crevice
You can run but you can never escape their prejudice
Ignorance and traditional roles of accepted sexuality
And now big brother is in your bedroom
And he don't like what he sees
Like what he sees
Like what he sees
Like what he

Fear, paranoia and insecurity
Turns into law enforced normality
When you're forced to bow down to the straight society
You're forced to bow down it's morality

It's so easy to have an open mind
When you're allowed bigotry of an accepted kind
But a homophobe is still a bigot
With the same hate in their mind that breeds racism
and sexism
It's all the same lies
But there is another sexual revolution on it's way
But this time everyone can participate
Let no one attempt to regulate your sexuality
