At the root of revolution there must exist
A love of life in it's purest form, life with total freedom.
For how long can we stifle our yearning for release?
How long until our kind realizes there is nothing
beyond our reach?

Learn, Learn Teach
Learn, Learn Teach
Learn, Learn Teach
Anarchy and Peace

These chains that we all where, are they for our
protection?
Or do they keep us bound to the system we've created
to save us from ourselves.
What are we really scared of ?
Cast off these chains and take what gifts true freedom
has to offer.

[Chorus]

In our nervous anxiety toward random chance,
uncontrollable change,
And all that is unpredictable, we have set a huge trap
for ourselves
And created a race within a vicious circle ever turning
back
To it's mournful legacy of self-destruction.
I now call out from one to another,
It's time that tradition be denied
So that a primal wave of passion
And true desire can unleashed upon this vicious human
cycle,
Turning it outward and giving us the power to
manipulate
What will be the destiny of us all.

So with this love of life, arm your desire.
The tribe is growing larger ,so watch this spark become
the fire
That lays this farce called government to it's final ruin

And the past shall fade away as the flames consume
them.

[Chorus]
