When I think about your empty promises
All the lies you said to me about you
Makes it easier for me to realise
That I'm better off living without you

CHORUS:

I will tell you once
I will tell you twice
You have got a heart as cold as ice
I've got nothing left tears are running dry
I believe its time to say goodbye

All the sleepless night that I have wasted
Trying to find a reason to forgive you
And after all the things that you have said and never
done
How do you expect me to believe you

CHORUS X2:

Y'Allh mia fora,
Prepi na sou po,
Po ste' ephtani na se symphoro
A Thelis kai gyo,
Na ma ste kala,
Ma the prote se nia, n'Maghapas
