"Done With This"

Visit "[Done With This](#)" on MotoLyrics.com

Any moment could just take you back

Feel it coming down
It's deafening the sound
Of that cold black darkness at my door
No you can't come in
I was happy here
No you must go away
I am done with this
No I can't go on
I am strong but this
Is a black cold heart
It's a black cold heart

And where the real thing is going wrong
I can't seem to get my heart to leave my head alone

And the day says be cool
Be cool be cool no more
No more

Feel it coming out
Threatening to drown
Oh my once strong walls
Well they're breaking now
No there's no more room
No you can't get in
I will fight you back
I will fight I will win
And where the real thing is going wrong
I can't seem to get my heart to leave my head alone

Help me out of here
I am done with this
