When nothing's going round
When nothing's going round as good
When nothing's left and what you had is gone
Time is yours so get up on it
Let's get off and ride it from here

We can't go too far
Living this way
Come take my hand
'Cause we might be lead astray
By people who stay in fantasy land

What's around the corner?
Is it where you want to be?
Or did you see the brighter
Scenes in the magazines

And when they say its time to go
It won't take long to see
The people left are those who know
That time is never free

You had me on
