Come on
It's not too late
Enjoy the party, come to the celebration
Come on
Let's celebrate
And be a part of our sweet and good profession

Din-dan-dan
Digi-din-dan-dan

Come everybody everyone
Coming down, let me see you're moving in right
direction
So many people everyday everynight
All have a good feel a good sensation
Good music on music everyday
I'm not going everything's OK
Show me once again

.....
.....
...we celebrate together
In a good direction

We all come to the celebration
We're all havin a good

We all come to the celebration
We're all havin a good sensation

From hearty people all around the world
Take it on making a solution
So many people everyday everynight
Have party goes of real profession
So many so many everywhere we're going
Songs about a situation black or white
Yellow green.....
..... we celebrate together
In a good direction
