Well it's finally time  
For this makeshift and rhyme  
And misery she hides inside words sublime  
And listenin' in colors  
And significant others just by

And the voiceless debate  
When the clock's face is straight  
Just echoes these pale bathroom walls where I wait  
But all this white silence  
Is better than violence

And for every redressing that  
Discounted blessings  
Seems every lost kid  
Got some diction to guessing  
Back washed malt liquor  
Never tasted much sicker than now

And the blunt broken poets  
Too unknown not to know it  
Upon their illusions  
In brains where I stow it  
Here's my hosanna  
Not a moment of plannin' until now

'Cause heard by this light  
Anything could sound right  
Well sisterhood shivers  
In the vacuum of night  
But these words are still nothing  
But a bullshit kid bluffing for now

And still undiscovered  
In a riptide of lovers  
Some someday away  
We wait for each other  
But cause is the means  
All my flaws go unseen  
Unlike now

So I'm calling out to you

A memory once you knew  
Now seems so deformed  
Both so wrong and so true  
And I frighten the virtues  
Of a person like you who  
Just wrestles in bed  
With every thought of the head

If I wake here tomorrow  
I won't be the same  
I can't let you watch me  
Just wastin' my brain  
So baby be good to  
The steps where I stood until now
