Chorus: Cisco Adler Sometimes, my mind slowly drifts away Wonderin' if you wanna come play I just want you to know Love's like magic Like magic Repeat Chorus [Mr. Lil' One] (Verse 1) Hey, hey Once upon a time (Yeah) I ruled the world, it was mine, all mine Chillin' in the sunshine, picturin' my mother smile So clear, but it's been a few years now If I could go back And rewind time Close my eyes, drift away, you would be sublime Peace of mind Rememberin' the good times Little young'n, I was tryin' to kick a fast line Those were the good old days, but now, they long gone Turn them fast lines all into hit songs Cause of you, I'm right here, doin' what I do If you lost someone you loved, then you feel me too What can I say There's no one there for us to blame At least once in your life, we all felt the same Refrain: Mr. Lil' One Throw your hands in the sky, one more time If you look, you will find, you can trust mine Repeat Chorus (Verse 2) Ho, ho Wait a minute, now (Yeah) I hope you know I do anything to make you smile Why you chillin' with your fam in the afternoon Barbecuin' all day til the full moon And the little ones run around, makin' noise And the teenage girls flirtin' with the boys All the part of growin' up, if you ask me Time travel too fast when it past me Sweet melodies, bringing back memories Put a smile on your face when you remember me They say time flies When you having fun Pass it on to my daughters and my baby son It's like magic, I try, but I can't explain Pray to God, every day, that it stay the same Repeat Refrain Repeat Chorus Hook: Mr. Lil' One Go ahead, drift away, reminisce with me Bout your kids, and your friends, and your family Stay close, don't go, I can feel you now It's like magic, just for a little while Repeat Hook Repeat Chorus
